EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims

Claim 1: lines 7 and 10, "perform" has been changed to --preform--.

Claims 2 and 13: line 2, "perform" has been changed to --preform--.

2. The following is an examiner's statement of reasons for allowance: Although many prior arts of record such as US Patent 6,689,009 teach an integrated differential case and ring gear member integrally formed as a unitary single-piece part by any appropriate process well known in the art such as casting, machining or powder metallurgy, however none of the reference, alone or in combination, teaches the specific steps as recited in claim 1 including the different machining steps in combination with the rest of the limitations in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
